Meet Tom

'I couldn't make any memories for almost six months after the crash. Even now I make lists of people I meet in my phone to help me remember them.' (cont. pg2)

17-25-year-old drivers accounted for 232 road deaths in the last year. Are your students road safe?

The bstreetsmart livestream includes:

- A re-enactment of a fatal car crash with all emergency services
- Speeches from crash survivors and their loved ones

Registration is \$110 per school & includes unlimited downloads until 20 December 2023

Register now & receive six educational resources. Email

chapin@bstreetsmart.org

In 2016, Tom was 18 and enjoying the break between high school and university. One night while traveling from the Central Coast to Newcastle in NSW he fell asleep at the wheel. Tom's car flipped and while he managed to escape the wreckage, he was then hit by an oncoming car. Tom suffered many broken bones but the most life-altering injury was to his brain. Tom had to learn how to walk, talk and eat all over again and still struggles to remember things eight years later.

'If you are lucky enough to drive, drive safely and with respect for your life and the lives of others.'

- Tom, aged 26

Hear from other crash survivors at the 2023 livestream.

Win \$2000: bfilmed entries close August 7!

This fits perfectly with the PDHPE syllabus!

Students need to submit a 3-minute film on road safety to rachel.watkins@health.nsw.gov.au by noon on August 7 to be in the running. See [here](#) for more info and Terms & Conditions.

With two-thirds of road deaths occurring in regional and remote areas in 2022, the bstreetsmart livestream allows students across Australia to access this award-winning program.

“The program resulted in a lot of discussion at school amongst kids and teachers. It was great!” - Teacher
